

[REDACTED]

July 14, 2003

I can't say enough nice things about my experience with Kamran/Diego.

They arrived out of nowhere and so soon after we had pulled over. Their big truck in back of us made us feel safer. The two men were very knowledgeable. "We will call you a tow truck and wait until the truck arrives." As we all waited, they noticed that the back left tire was sticking out. This was an important observation because if we had tried to move the car onto the flatbed, the tire would have come off and caused much damage. (We had a broken axle).

Thanks to Kamran/Diego, there was no damage on my beautiful 1929 Model 'A'.
